

Working people have had rights and protections taken away many times over.

Banks, businesses and CEOs always get bailouts when the economy goes south.

Whenever the politicians need someone to “sacrifice”, it’s always the middle class.

The time has come for workers to get protection in the Illinois Constitution—once and for all.

In the past 40 years:

- Tens of thousands of jobs have been shipped overseas.
- The share of America’s income going to workers’ wages has plummeted.
- Politicians have whittled away at the laws protecting the rights workers earned.

We can change it by voting YES on the Workers’ Rights Amendment:

- The **WORKERS’ RIGHTS AMENDMENT** will guarantee the right of workers to negotiate for safe working conditions and fair pay.
- The **WORKERS’ RIGHTS AMENDMENT** will help put patient care ahead of profit and make sure workers can speak out about safety issues.
- The **WORKERS’ RIGHTS AMENDMENT** will finally stop politicians from taking away workers’ freedom to join together and negotiate with their employers.

JOIN THE CAMPAIGN TO PASS THE
WORKERS RIGHTS
AMENDMENT
